

## CEDARS-SINAI MEDICAL CENTER.

Beckman Coulter Foundation  
250 S. Kraemer Blvd.  
Brea, CA 92821-6232

January 27, 2011

Dear Friends,

Thank you for the Foundation's recent gift to Cedars-Sinai Medical Center. As requested, your contribution will be directed in support of the Clinical Chemistry Fellowship Training Program under the leadership of Sayed M.H. Sadrzadeh, PhD.

This level of generosity demonstrates the profound interest, care, and commitment that you share with our medical researchers, clinicians, surgeons, and staff. By donating to this program area, you are enabling the development of new knowledge, which will ultimately lead to the discovery of preventative measures and innovative treatments—all for the benefit of our community.

Cedars-Sinai is well-positioned to deliver extraordinary results in the months and years to come. We have our charitable partners to thank for making this a reality. Our responsibility in return is to use your contribution to the best of our ability in support of this mission. We look forward to making you proud of our continuing partnership.

Sincerely,

Vera Guerin  
Chair, Resource Development Committee  
Board of Directors

Arthur J. Ochoa, Esq.  
Senior Vice President and  
Chief Development Officer  
Community Relations and Development
